If we had trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... space would be full of life and intelligence, and energy. He added that he wants to help build heavy infrastructure that will be just by the space entrepreneurs of future generations ... so that imagination can really be unleashed.

Mr Bezos thoughts are echoed by fellow multi-billionaire Elon Musk, owner of "X" (formerly known as Twitter). In 2021 he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species." Earlier this year, Mr Musk warned that: "Population collapse due to birth rates is a much bigger risk to civilization than global warming ... mark these words." In a vibrant coast town, Zoe, a young chef with an extraordinary talent, thrived. Fascinated by exotic flavors, she dedicated her life to creating innovative dishes, her skills far surpassed those of her traditionalist colleagues.

One brisk morning, Zoe embarked on a spontaneous quest for a culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fish villages. She wandered through bustling bazaars, her senses alighted with an array of spices and fresh seafood. Her searching brought her to hidden cove at dawn, just as fishermen had brought in their early catch.

There, Zoe discovered a rare fish, its flavor was unlike anything she have ever tasted. This discovery ignited a burst of creativity: ocean's bounty was exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blended traditional techniques with avant-garde tastes, soon became legendary, inspired others to explore and embrace diverse flavors of the world.
