The statement "I hate living in the countryside" can have some possible ~~answ~~ reasons.

The first argument can be that outside the city the internet connection is really bad. This ~~pr~~ problem has appeared because of the value of the mobile phones nowadays.

The second argument might be about the entertainment. In the countryside there are not so many cinemas, theatres, and the life can be really boring.

I suppose, ~~that~~ these two reasons are the main, but not the only ones.

Task №3.

On the presented diagram there is shown how much time teenagers' activities take from their day.

Sleeping has 30 % and is the biggest part. It can be real, because life is becoming more and more stressful. So, during the day a lot of teenagers are tired and always want to ~~at~~ sleep.

Eating and studying both have 15 %. They ~~are~~ ~~re~~ are really important, but need less time than sleeping. So, because of this fact those positions have high percents.

Videogames, online, phone and sports have 10 % each. So, they fill the rest part. Everything without sports have high percents as they are now. Sport takes lower part of our life each year, because teenagers do not understand its value.

As a result, it is possible to say, that daily activities of teens changed a lot. It is naturally because of the progress, there is nothing to do with this.
