№7

It could be many reasons why people hate living in the countryside.

~~The~~ To start with, there are often big problems with transport, which arrives late, that's why it usually takes a lot of time to get from the countryside to the city. Another reason why some people prefer living in the city, there are no any attractions and abilities to grow up in the countryside.

All in all, everyone choose what he or she want.

№8

Analyzed the presented diagram, which perform us daily activities for teenagers, we can clearly see which ones take the most amount of their time.

According to this diagram, the longest activity is ~~spe~~ sleeping. All people should have a healthy sleep. The second place goes to eating and doing homework. It is 15 percents. Then, many teenagers prefer to spend their time playing videogames, going online and phoning or texting. It is 10 percents. Also, 10 percents go to sport activities. Of course it is very important to keep fit and healthy.

In my opinion, nowadays teens spend too much time using their smart-phones, laptops and other gadgets. Our parents did not have all this things and spent more time studying and reading.

It is very important to develop your skills and raise your horizons. ~~Teens~~ Teens should delegate their duties wiser and spend more time studying. It contributes to their future life.
