Well, I suppose that she hate living in a big city due to traffic, various obstacles that can make the arriving somewhere longer and harder. Besides, she may be angry because of the noise, crowds and fast way of living. I mean, that everybody is hurrying, shouting, complaining and at the end of the day you are too tired, exhausted. Finally, she may just ^{had} ~~take~~ a bad, ~~at~~ unlucky day, when everything goes wrong.

Task 8.

The diagram illustrates information about how teenagers use social network. 73% of them are on it, the reason is having no opportunity not to have social networks, modern world has it's own rules. A bit more than a third part communicate with friends ^{every day and a bit less open Facebook} more than ^{ten} times daily. I suppose, that they use it so often, as nowadays it is easier ^{then call.} to text someone. Also, there is a lot of vital news, ~~that everyone should know.~~

Then, there is a quarter of users social networks, that are less than ^{ten} years old. I can guess, that now children get their phones at the age of ^{five} ~~5~~ thus there are too many little users. ~~Desi~~

Besides, the big amount of teens has about two hundred friends. I think, they make friends with people from camps or school.

And well, only ^{eight per cent} ~~8%~~ use Twitter. Maybe it is just less popular.
