Task 7.

I think that ^{she} hates living in the countryside because of different uncomfortable things. First thing is area. There are not so

many places to go in the countryside (like cinemas, theaters and so on). Second thing is environment. A lot of people just hate forests, fields and lakes or rivers. And the last and the most uncomfortable thing is insects ^{everywhere} (~~they are everywhere~~). Many people are afraid of them or just dislike them. These are very usual problems in the countryside.

Task 8.

I think that main reasons for these changes are school and studying. Teenagers stay at school for about eight hours each day and it's a great deal of time.

Teenagers spend most of their time at school. They come home really tired and usually ~~can't~~ want to sleep. They also need enough strength to do their homework and other studies. That's why eating is very important for them. After a difficult day teenagers want to have a break (like playing videogames), and talk to their friends (but usually they can do it only online).

Teenagers ^{often} ~~usually~~ do sports to keep fit and have more energy for studying. A great deal of homework takes a lot of time every day (even on each weekends).

In conclusion, I want to say that such changes in teenagers' lives are mostly because of school and studying. Teenagers have a really hard work.
