Task 3

Just when ^{drummers} ~~damagers~~ are ringing alarm bells about over population, 'amazing' founder Jeff Bezos says: 'we need to populate our solar system'. Mister Bezos was asked for

his thoughts on humanity living in outer space in a thousand years time. He replied: "Would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of further generations... so... that ingenuity and imagination can really be unleashed."

Mr. Bezaz's thoughts are ... by

fellow multi-millioner Elon ~~Musk~~ Musk, owner of ~~Ex~~ (formally known as Twitter). In 2021 he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species." Earlier this year, Mister Musk warned that: "Population collapse due to low birth rates is a much bigger risk to civilization than global warming... mark these thoughts." Mister Bezar conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine

environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.

Task 4

In a vibrant coastal town, Zoe, a young chef with an extraordinary talent, ~~was thriving which was thriving~~ thrived. Fascinated by exotic flavours, she dedicated her life to creation of innovative dishes, her skills were far more surpassing those than those of her traditional colleagues.

~~On one~~ One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for

unique ingredients, she explored the local markets and remote fish villages. She was wandering through bustling bazaars, when her senses alighted with an array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as fishermen were bringing in their early catch.

There, Zoe discovered rare fish, its flavor was unlike anything she had ever tasted before. This discovery ignited a burst of creativity: ocean's bounty was exhilarating but there were other unexpected finds that truly inspired her. Zoe's culinary adventures, blended with untraditional techniques

means a distinguishing feature of somebody's character ^{or a habit} which is quite neutral (so it is not annoying or bad).

Task. 9

I was about to celebrate New Year with my friends in a small company. ~~You know,~~
~~We are only 17 but~~ Although we are only 17 years old, we usually find ourselves acting like our grandparents. When we meet, we enjoy playing board games, cooking dinner, reading newspapers. I knew that the New-Year celebration was

going to be a bit dull and unadventurous,
so I kind of came into terms with the
fact that we would go to bed right after
the president's speech.

~~While~~ When I was heading to my friend's
house, where we were supposed to meet, I
bumped into a boy who seemed really nice.
He invited me to a party at his home
and told me to bring my friends.

Surprisingly, when I shared the news with
my friends, they supported the idea of
celebrating the New Year at the boy's house.

We spent the whole night there playing
'Mafia', 'Crocodile', and 'Truth or dare'.
All in all, the party really took off!

A dull celebration turned into an adventure!
Now I still keep in touch with this boy. Moreover, we (my
friends and I) have already attended several of his parties.
