attend the conference tomorrow.

9 Nobody in my family is computer literate.

10 I wish I can speak five languages!

Task 9 1 museum

2 desk

3 school

4 test

5 homework

Task 7 I hate living in a big city for many reasons. Firstly, there is a bad ecology. Factories located in the city do harm to rivers, ground and air. Also, many people throw their litter on the ground instead of rubbish bins. Secondly, living in a big city is expensive. Prices for flats, clothes and food are lower in the small towns. Finally, it takes so much time to go somewhere. I can waste several hours going to ~~the~~ work.

task 8

let me tell you about teen social networking stats.

A pie chart shows us an everyday activities for teenagers. 73% ~~of teens~~ use social networks. moreover, 37% chat with friends everyday. In fact, 22% ~~of teenagers~~ use Facebook more than 10 times a day and 25% users are under the age of 10. Also, the average teen has 201 Facebook friends.

Personally, I think that a lot of teens use social networks because there you can watch your friends' lives and show your own. what is more, there you can ~~find~~ make new friends. So, social networks are useful and help us to ~~communicate~~ communicate. As for chatting with friends, I don't think that it's harmful as we just talk about interesting news in our lives. No doubt, we can know more about each other and our interests.

In conclusion, I'd like to say that a modern person cannot imagine his life without social networks. It's hope that they won't do harm to us.
