Task 3.

Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos (~~about overpopulation~~) says we need to populate our Solar System. Mr. Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the Solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations, so that ingenuity and imagination can really be unleashed."

Mr. Bezos's thoughts are echoed by fellow multibillionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We do not want to be one of that single-planet species; we want to be a multi-planet species". Earliest this year, Mr. Musk warned that "population collapse due to low birth rates is a much bigger risk to civilization than the global warming... mark these words." Mr. ~~Musk~~ Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit ~~the~~ Earth for vacations. He envisions our planet returning to its pristine

environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up

Task 4.

In a vibrant coastal town, Zoe, a young chef with an extraordinary talent, was thriving. Fascinated by the exotic flavors, she dedicated her life to creating innovative dishes, her skills far surpassing those of her traditionalist colleagues.

One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for the unique ingredients, she explored local markets and remote fishermen villages. She was wandering through the bustling bazaars, her senses were alighted with an array of spices and fresh seafood. Her search brought her to the hidden cove at dawn, just as the fishermen were bringing in their early catch.

There, Zoe discovered rare fish, its flavor was unlike anything she has ever tasted. This discovery was the burst of creativity: ocean's bounty was exhilarating, but there unexpected finds that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace the diverse flavors of the world.

- Uh... four beers, please - said stumbling our character.

- Sure!

The waitress left and he ~~was~~ went: - Oh Lord, what a beauty! If only I had her number! - he then ~~he~~ got distracted by the game, and the rest of the night slipped his mind completely...

- Thank god you are alive!

- What happened yesterday? I can not remember a thing!

- Well, you got in a huge fight over something with some boxer guy, and... there you are, - his friend explained the situation.

- Oh, what a horrible misadventure! - said, confused and upset, the main character. He was interrupted by a knock on the door. The beautiful blonde entered the room.

- W...what are you doing here?

- Just wanted to thank you. Yesterday, some boxer was disturbing me after the match and you ~~just~~ stood up for me. Here, - she handed him some paper - My phone number. Let's have coffee tomorrow. - she left the room.

- I take my words back!
