#### Task 7.

In my opinion, the main reason for hating life in the countryside is lack of opportunities.

Countrysides ~~usually~~ don't have good schools or universities, which means you can't get a nice job either.

People in countrysides often suffer from illness. Because they don't have a hospital to go to. That means they can't have a long, happy life.

Some countrysides ~~to~~ <sup>don't</sup> ~~hasn't~~ even have water or electricity.

In conclusion, those might be the reasons for hating life in the countryside.

#### Task 8.

##### Daily activities for teenagers.

We can see a pie chart, which shows daily activities for teenagers. Let's look at it closer.

We can notice, that the main part of the chart, which is 30%, is ~~as~~ named "sleeping". That ~~clearly~~ makes sense. People at any age spend lots of time sleeping. Sleeping ~~healthily~~ is very important for anyone's health.

Parts of the chart named "Sports", "Phone/Texting", "Online" and "Videogames" are equal. Each of them takes 10% of the chart. Nowadays teenagers spend a lot of time in front of the screen. This can be due to many reasons: ~~sta~~ From education to amusement, as, for example videogames. Sports are really important for our

physical health, that's why they take part in that chart.

Parts "Studying/Homework" and "Eating" are also equal. They take 15% of the diagram. It is necessary for teenagers to study, if they want to achieve their goals in life. And of course, eating is also really a need. ~~Without consuming food it's impossible to live.~~

In conclusion, that chart shows as a life of typical teenagers nowadays.
