### Task 1

My friend could give me following reasons:

Reason number one: Countryside lacks a lot of shops, cinemas etc.

Reason number two: Conditions in countryside are worse, for example: broken roads.

Reason number three. In most countryside houses there is no running water or heating.

Reason number four: There are a lot of flies and other insects in the countryside.

And the last reason number five: There is not much to do in the countryside.

## Task 8

In this ~~project~~<sup>presentation</sup> we can see different activities of teenagers during the day.

First of all sleeping: without a doubt sleeping is great, especially from 8-10 hours a day. So 30% of sleep is normal.

About eating: it takes 15% of day, which is nice, as the more you eat (not overeating of course), the more energy you have.

Studying takes 15% a day, and I am shocked with such low number, as for example study 8 hours a day (around 30%), and instead teenagers spend all their energy they saved up for playing videogames, phoning and texting, being online, which is really sad.

At least teenagers spend 10% of their day doing sports (around 2 hours)

All in all teenagers don't ~~the~~ spend their time wisely,  
instead they spend 10 hours a day using their gadgets,  
and not studying or doing various sports during  
day.
