Task 1

- 1 Time is a gift. It waits no one. You should think about every second. Change your life. Begin with some small steps. Success goes for people that understand the value of time.
- 2 Rohan organised his routine and did all small tasks accurately.
- 3 He was always punctual and he worked very well.
- 4 The true power of time is huge. It is a resource, a treasure. It can give you relationships, a career, but if you don't miss it.
- 5 He was a famous man. All people loved him and asked him for advice.
- 6 They also tried to think about the time as about the value. And they could do it.
- 7 Rohan inspired the younger generation and they

changed their village together.

8. Cherish your time, think about every moment as about a value. And you'll be happy and successful.

9. They tried to do all now and here. And they started to change their ^vlives and become some famous stars.

10. The time is a value. Cherish it and think about it like about a gift. It will come to end. SO spend every moment like the last moment in your life.

8. They finished editing this text two hours ago.

10. You should put ~~off~~ your jacket, it's cold and windy today. 9. Will you write your business partner a thank-you note?

Task 7.

I hate living in the countryside because it's too quiet there. There are lazy people, I think. I like the busy and crowded town. I also think it's uncomfortable and dangerous to live there. If you are ill you can go to the local hospital, ^{only} it's also boring. There aren't any nightclubs, cafes, theatres and museums. You can do nothing. I prefer to live in the "dirty" but wonderful city.

Task 8

What do teenagers do in their ~~three~~ ^{day} time. According to the diagram, ~~about 30 per cent of teenagers go to bed even in their daytime. It is good for your body but isn't it "unhealthy" for your brain? When we sleep at night, our brain "puts" this activity in~~ ^{time}

~~our brain timetable! And when we try to sleep at the daytime this ruins our brain timetable.~~
~~It's very bad because how your brain doesn't know when are you go will you sleep next time.~~

~~The total 45% of teenagers are eating or studying and doing homework. It is a very important time~~
Teenagers spend 30% of time sleeping. Then they eat and do their homework or study. Each activity takes 15% of their daytime. ~~And~~ They spend another time ~~by~~ playing videogames, chatting, surfing or doing sports.

I think, that it's very unhealthy that teenagers spend 30% of their time in their phones, computers and TVs. It's bad for their eyes and backs. They spent only 15% of their time ^{for} ~~to~~ studying ^{or} ~~or~~ doing sports. And if they ^{studied} ~~would study~~ harder, they ^{will} ~~would~~ be better students.

Or if they do sports more often, they will ^{become} ~~be~~ champions. So teenagers should spend more time doing ~~some~~ work, that will give them some benefit. If they will do like ~~that~~ ^{is}, they will become efficient and confident people. ~~Effective work is worth it.~~

But they also have to relax. They should only waste less time on it.

So it will be effective to them.

Task 9

1. ~~note~~ mark

2. Continue

3. backpack

4. sleeping

5. ~~exercise~~ ^{cise}
