If we had a trillion humans, we would have any given time 1000 moonsats and 1000 instance space would be full of life and intelligence and energy'. He added that he wants to help build heavy infrastructure that will be used by the space entrepreneurs of future generations so that engineering and imagination can really be unleashed.

When the girl got there she got frustrated. There weren't anyone at the place. The friends didn't answer her phone calls. To her great disappointment, ~~she forgot~~ it started to rain. The adventure was horribly spoilt.

Suddenly she heard a voice beside her. She saw a handsome young man. He turned out to miss the same bus. A feeling that she was not alone cheered Nancy up and she laughed. The boy started laughing too. She understood that her misadventure turned real adventure.
