Just when demographers are ringing alarm bells about overpopulation, amazing Amazon founder Jeff Bezos says we need to populate our Solar System. Mister Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the Solar System. If we had a trillion humans, we would have at any given time 1,000 Mozarts and 1,000 Einsteins... Space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... so that ingenious imagination can really be unleashed".

Mister Bezos' thoughts are echoed by fellow multi-billioner Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species." Earlier this year, mister ~~Musk~~ Musk warned that: "Population collapse due to low birth rates is a much bigger risk to civilization than global warming... Mark these words." Mister Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet retaining to its pristine environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earths.

Her search had brought her to a hidden cove at dawn, just as fishermen were bringing in their early catch.

There, Zoe discovered a rare fish, its flavor unlike anything she has ever tasted. This discovery ignited a burst of creativity: ocean's bounty was exhilarating, but there were unexpected finds that truly inspired her. A misadventure turned adventure.

One ~~bright and happy~~ day, a man with ~~beautiful blonde hair and~~ a huge bag went to the airport. He needed to go to Texas for the family reunion. The man went up to the entrance and was immediately stopped by the officers.

"Excuse me, sir," the policeman approached. "What's in your bag?"

"Benkies," the man immediately answered.

"What's 'benkies'?" they questioned.

"Give me a hundred dollars and I'll tell you."

"No way!" they looked at each other, hesitated. "We'll let you in, but be truthful at the customs."

The man went through the customs, but then another police officer came up to him. When the man ~~answered~~ ^{said} the same thing as before to this officer, he looked surprised to say the least, although suspicious. After showing the ticket, the man was sent ~~into~~ to the waiting area.

"We'll see what kind of 'benkies' he has," the officer murmured.

The people in the waiting area couldn't stop asking the man: "Why are you not in line?" And he simply answered: "Because of my benkies."

	Police officers gathered around the man's bag, trying to open it. Finally, when it was opened they saw a pair of shorts with the note: "Bēnkies!"
