Task 3

Just when demographers are ringing alarm bells about over-population, Amazon founder Jeff Bezos says we need to populate our solar system. Mister Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... space would be full of life and intelligence and energy." He added that he wants to help build heavy infrastructure that will be just by the space entre-

preneurpreneurs of future generation... so that ingenuity and imagination can really be unleashed.

Mister Bezos' thoughts are echoed by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those single-planet species, we want to be a multi-planet species". Earlier this year, mister Musk warned that: "population collapse due to low birth rates is a much bigger risk to civilization than global warming... mark these words". Mister Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.

Task 4.

In a vibrant coastal town, Zoe, a young chef with extraordinary talent, thrived. Fascinated by exotic flavors, she dedicates her life to creating innovative dishes, her skills far surpassing those of her traditional colleagues.

One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients she explored local markets and remote fishermen's villages. She wandered through bustling bazaars, her senses alighted with an array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as fishermen brought in their early catch.

There Zoe discovered a rare fish, its flavor unlike anything she had ever tasted. This discovery ignited a burst of creativity. ocean's bounty is exhilarating, but there are

unexpected finds that truly inspire her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspired others to explore and embrace diverse flavors of the world.

Task 9

~~One day I told my best friend Winnie that I ^{was} go out to get peaches.~~

About 2 years ago I had to travel to Washington DC for work. Seems simple, isn't it? Well I, as a person, who moved to the US a couple months ago, managed to confuse it with Washington.

It all started with a serene waiting at the airport, then a flight full of eating delicacies and sleeping, but after I landed, I immediately felt something was off. No sign guy, no colleagues waiting for me, ~~no~~ lastly, I couldn't find my hotel on the map of the ~~place~~ city I was at.

Then I felt a light tap on my shoulder, I turned around only to be met by a smiley man with a curious expression. He inquired: "Are you, by chance, also a victim of mixing up 2 Washingtons?" I was distraught ~~wi~~ when I realised I actually was the one.

Fast forward, ~~to now, I am now~~ I am now married to that man. He kindly offered to help me ~~get to~~ reach the right destination that day and then boldly asked for my number. Moral of the story: sometimes being uneducated ~~transforms your life~~. Since that day we've travelled around 15 states! Moral of the story: sometimes being stupid does you a favour.
