Task 3.

Just when demographers are running alarm bells that about over-population, Amazon founder Jeff Bezos says we need to populate our ~~sole~~ Solar system. Mr Bezos

was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the Solar system. If we had a trillion humans, we would have at any given time 1,000 Mozarts and 1,000 Einsteins... space would be full of life, and intelligence, and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... so that ingenuit^e imagination ~~can~~ really be ~~on~~ lift^e unleached."

Mr Bezo^s's thoughts are echoed by fellow multi-billionaire Elon Mask, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species." Earlier this year, Mr Mask warned that "population collapse due to low birth rates is a much bigger risk than global warming... mark these words." Mr Bezos conceives of people living in giant space stations. He said, most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said, they would exploit resources on the Moon or on asteroids instead of using up Earth's.

Task 4.

In a vibrant coastal town, Zoe, a young chef with extraordinary talent, thrived. Fascinated by exotic flavours, she dedicated her life to creating innovative dishes, her skills far surpassing those of her traditional colleagues.

One brisk^{ful} morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fish villages. She wandered through bustling bazaars, her senses alighted with an array of spices and fresh seafood. Her search brought her to a hidden cave at dawn, just as fishermen brought in their early catch.

There, Zoe discovered rare fish, its flavour unlike anything she had ever tasted. This discovery ignited a burst of creativity: ocean's bounty was exhilarating, but there were unexpected findings that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace diverse flavours of the world.

A Misadventure turned Adventure

"Jack!" Michael cried. "I've lost my shoe!"

Jack, Michael's brother, was lying on his bed, listening to music.

"Well, you will leave fewer dirty spots on the floor, then," he said.

~~Michael, though, looked so miserable that~~ Jack yawned and promised to find the shoe ~~in a couple of minutes~~ quickly.

"Good job, Michael!" their mother said, watching them leaving the house. "It's high time your brother stopped playing computer games and went for a walk."

There was nothing mysterious in the garden, though. The only thing the boys noticed was a small hole in the fence.

"Wow!" Jack said, trying to get through the hole. ~~It~~
"Had I discovered it last Sunday, I would have escaped for fishing in the morning."

They saw a path behind the fence, which led to a forest. A couple of minutes later Jack nearly fell into a large hole and shouted so loudly that their dog named Bob ran to them. Suddenly, he jumped into the hole and took ~~the~~ the shoe he must have hidden there.

"Bob, you nearly gave me a heart attack!" Jack cried. "Oh boy, thanks for help. It's a pity we didn't find any real treasures, isn't it, Michael?"

Michael smiled and the brothers went home, cracking jokes and admitting it was a little adventure.
