TASK 7

Many people prefer big cities to ~~so they~~ the countryside. The main reason is the comfort. In the city you can enjoy life while cleaning service is cleaning and a delivery guy is delivering already cooked food.

In the countryside, you can only "enjoy" screaming donkeys and have to do all the ~~stuff~~ ~~stuff~~ ~~sto~~ stuff yourself.

Also, the modern life is in the Internet, which you can't have in the countryside, so a megapolis is much better.

TASK 3.

Today lots of adults argue about kids' using gadgets. But is it reasonable?

~~Many parent felt nervous about kid's time online.~~

On the pie-chart we can see that 30% of a teen's day is ~~to~~ full of gadgets. Many parents ~~feelt~~ feel nervous about kids' time online. Newspapers are full of ~~frase~~ phrases like "iPad zombied my kid". But is it real?

~~Today, the world is online. Even kids can corre~~
~~succes in the Internet.~~ Nowadays, all life is online. And the only important thing is to ~~us~~ use Internet correctly. "Correctly-using the ~~the~~ Internet ~~kids~~ kids grow up smarter than others" - says a psychologist Oscar Torntloe. So even 30% using ~~ded~~ per day using gadgets can be nice.

~~Less it is a lot~~ Many kids have succeeded
on line. Sometimes, they even ear money. Social
media is full ~~to~~ with stories about kids, who
earn lots of money by coding or blogging.

After it, we can't name Internet an enemy.

The main advice for parents is just to
calm down and explain teens the safe-ru-
Internet safety rules and the real-life
activities importance. The world is modernized
now, so it's better to forget about strange
pie-charts.
