✓ Second, the environment. ~~The air and the water~~ water. There are lots

of cars causing a heavy traffic. Their
fumes, as well as factory fumes,
~~make~~ ~~are~~ very and factories
and factories causing air and
water pollutions. Not to mention that

Task 3.

This pie chart is showing daily teenagers activities. We can view the general tendency of teenagers being on social network and using it with the aim of ~~comotite~~ communication. The number of Facebook included stats displays that this platform is used way more often than Twitter. Facebook provides teenagers and kids numerous of options for social interaction. It can be chat, sending messages ~~off~~ or posting photo or posting photos and videos.

Nevertheless, the diagram shows only social networks as daily activities for teenagers. These day and age

young people are used to ~~this~~ ~~the~~ ~~type~~ of things. ~~the~~ social media and network the presence of social media in their lives. Because ~~we~~ ~~most of us live in a big cities,~~ communication ~~are~~ in social networks does not require ~~a certain~~ ~~prc~~ much. ~~It~~ ~~is~~ ~~so~~ Teenagers ~~feel~~ feel safer and more confident texting ~~the~~ rather than actually talking.

Another reason is an attention spam. Teenager's brain consumes ~~an~~ information so fast that it could be ~~a challenge~~ not ~~easy~~ easy to stop. The reason why Face ~~to~~ Facebook is ~~so~~ popular ~~because~~ with teenagers because their head in

consuming can be satisfied.
That's all hypotheses I had.
