Task 9 Once me and my friend chose to go hiking to the mountains as our vacation activity. We managed to buy the map and thought of a route beforehand. All of a sudden, we got lost. And I realised, that I couldn't find the map. I was panicked and afraid to think of this situation.

We put an effort to recall how we got there. There was nobody but us in the mountains. The destination was quite unpopular. We weren't

able to call anybody and could rely only on ourselves.

I was afraid that I will never see my family again, I prayed to God that he could save us. Soon I became tired of all the thoughts that had been coming to my mind all that time. We decided to have a snack. Once I got the sandwiches out of my backpack, I realized, that the map was there all the time! The key to our survival was under my lunchbox. I was shocked, how could I forget about it!

Since that time, I've always put the maps, compasses and other useful tools under my lunchbox, so I could never forget where they are. I stopped to worry about forgetting to put something in my backpack, so I became more courageous and adventurous. There were many adventures after that!
