Just when demographers are ringing alarm bells about overpopulation Amazon founder Jeff Bezos says we need to populate our Solar system. Mister Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see you know, a trillion humans living in the Solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... Space would be full of life, and intelligence, and energy. He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... so that

Mister Bezos thought are echoed by fellow multi-billioner Elon Musk, & owner of X (formerly known as Twitter). In 2021 he said of the human race: "We don't want to be one of these single-planet species. We want to be a multi-planet species." Earlier this year, mister Musk warned that: "Population collapse due to low birth rates is a much bigger risk to civilisation than global

warming. Mark these words mark these words. "Mister Bezas conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine environment as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.
