Task 4

"Cons of living in the countryside"

A friend of mine once said to me, "I hate living in the countryside". What reasons could she give?

Firstly, there is small amount of shops and supermarkets, so you can't get anything you want. Secondly, you have less people to be friends with. Usually, you only have 2-3 friends there. Finally, there is usually nothing to do besides gardening and farming, but it can be really boring and exhausting.

These are the things my friend might hate countryside for.

Task 8

Modern teenagers have access to many activities, but ~~are~~ ^{do} they use their free time properly? Let's find out.

According to the pie chart of daily activities for teenagers, teens sleep for around 8,2 hours, study for 3,6 hours and eat for about 3,6 hours too. Around 9,6 hours of free time is left, but how ~~are teens~~ ^{do teens} spend it?

Teens ~~free~~ spend around 4,2 online, playing videogames, texting or surfing the net. In my opinion, it would've been better to ~~spending~~ spend it studying more or to sleep more, but modern technologies are really exciting to use, that's why they take up so much time. Also, with various chats and social networks available online it's not necessary to meet someone in person to communicate with him, her or ~~even~~ ^{anyone}.

Overall, we can say that modern technologies are really popular among teens, and most likely are going to stay like that for a long time.
