Task 7.

The reason why my friend hates living in a big city is that she lived in a village before, and it is hard for her to adapt to the big city's life. For example, so much noise and people are unusual to her⁴³, as her life in the village was quiet and peaceful. Also, according to her, the air is polluted in big cities, ~~and it destroys her lungs~~. I think ~~that~~ that it is understandable why she ~~doesn't want~~ hates living in a big city.

Task 8.

In this essay, I'm going to speak about Teen Social networking stats.

First up, 73% of teens use social networks. I'm okay with that, as long as they use it for a good purpose. Next, up, 8% of American teens use Twitter. Honestly, this is no surprise for me because Twitter is one of the most popular social networks in America. Next, 37% of teens send messages to friends every day. I'm, personally, okay with this, as I'm the part of these 37%. 22% of teenagers log on Facebook over 10 times per day. For me, this is not good at all, as well as the fact that 25% Facebook users are under 10 and that the average Facebook ~~user~~ teenager has 122 friends.

To conclude, I'd say that these stats aren't that good. I think it's caused by parents, who give their kids too much freedom. I think they should be more strict.
