TASK 7

I consider that there are several reasons why some people can't stand living in big cities

First, megapolises are always fast paced. It's busy in the mornings and evenings, because everybody is going to work.

Secondly, there is ~~an~~ usually lack of nature in a big city. People, who find their peace while being close to the environment, would be disappointed.

If these facts are true for you, maybe you should ~~to~~ try living away from big cities?

TASK 4

1. put, put, put

2. burst, burst, burst

3. smell, smell, smell

Task 8

This pie ~~chart~~^{chart} describes social ~~net~~^{networking} activities, which are popular among the teenagers.

Social network has made a huge impact on the modern generation. For example, this pie chart shows that 73% of teens use social media. It's fast and comfortable, that's why it's so valuable for teens.

Moreover, this diagram shows the percentage of teenagers who send their messages to friends. It's 37%, and I think it's because teens always want to keep in touch with their friends, no matter how far they are from each other.

Also, there are 25% of Facebook users

who are ~~are~~ under the age of 10. I believe, that 10 is still young to ~~use~~ use social media, however it might be because of the lack of parental control. A huge number of kids can be influenced negatively by the content they see on different social media platforms.

To conclude, I could say that teens should be careful with social networks.
