Task 4.

In a vibrant coast town lived Zoe, a young chef with extraordinary talent. Fascinated by exotic flavors, she dedicated her life to creating innovative dishes, her skills far surpassing her traditionalist colleagues.

One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fishing villages. She wandered through busy bazaars, her senses alight with arrays of spices and fresh seafood. Her search has brought her to a hidden cove at dawn, just as fishermen brought in their early catch.

There, Zoe ~~has~~ discovered rare fish, its flavor unlike everything she has ever tasted. This discovery has ignited a burst of creativity: ocean's ~~bound~~ bounty ~~is~~ was exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace diverse flavors of the world.

Task 3

Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our solar system. Mister Bezos was asked ~~about~~ for his thoughts on humanity living in outer space in a thousand years' time. He replied: "I would love to see just now, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 ~~Mozarts~~ Mozarts and 1000 Einsteins... Space would be full of life and intelligence and energy." He ~~also~~ added that he wants to help "go build ~~infrastructure~~ heavy ~~in~~ infrastructure that will be just by the space ~~enterprises~~ entrepreneurs of future generations... so that ingenious imagination can really be uplift."

Mister Bezos' thoughts are okayed by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We do not want to be one of those single-planet species; we ~~want~~ want to be a multi-planet species." Earlier this year, Mister Musk won't doubt: "people's lives collapse due to low before rates is a much bigger risk to civilisation global warming... ~~make this~~ ~~over~~ mark these words." Mister Bezos can see people living in ~~giant~~ giant space stations. He said most inhabitants of these would visit Earth for weekends. He envisions our planet returning to its

pristine environment, as factories would be built in space. He said they would exploit resources on the moon or on asteroids instead of juicing up Earth.

Task 8.
