Just when demographers are ringing alarm bells about overpopulation, amazing founder Gert Besis says we need to populate our solar system. Mister Besis was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have in any given time 1,000 Mozarts and 1,000 Einsteins... space would be full of life and intelligence and energy". He added that he wants to help "build heavy infrastructure that will be ~~used~~ used by the space entrepreneurs of future generations... so that ingenious imagination can really be uplifted.

Mister Besis's thoughts are echoed by fellow multi-billioner Elon Musk, owner of x (formerly known as Twitter). In 2021, he said of the human race: "we don't want to be one of those single-planet species, we want to be a multi-planet species". Earlier this year, mister Musk warned that: "population collapse due to low birth results is a much bigger risk to civilization than global warming... mark these words". Mister Besis conspires

of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.

Once, when I was on my way to school, I fell asleep in the subway. When I woke up, I understood that I had missed my stop. I was in another city! I had no choice and especially no wish to get in another city, so I decided to leave the subway in Moscow. I took my phone and saw many missed calls. I started answering everyone. No one could understand how I appeared in Moscow. My teacher and classmates were shocked. The next train was in five hours, so I had to go somewhere. As I had never been to Moscow before, I decided to visit the Red Square. It was a magnificent sight! The Kremlin impressed me a lot. As it was winter, it became really cold to stay outside for me. I entered a cafe where I tasted a nice cup of tea with a *trdelnik*. This situation, I mean my stuck in another city, started making me laugh about it. So I bought some souvenirs from Moscow for my friends. The funniest thing is that my parents still don't know about my unexpected trip. That's how my misadventure turned adventure.
