TASK 2

a) I was walking along a forest path...

1. Suddenly I heard a strange noise. I was walking past a cave. The sound seemed to come from there. It was loud, ~~and spooky~~ like a shout.

I freaked out ~~at first~~ and got really nervous. "What if it ~~was~~ a monster?" - thought I. Then the fear faded and I felt silly because of my thought.

I didn't hear anything at the moment, so I decided to have ~~a~~ a look at the cave. There was nothing inside the cave, ~~and~~^{so} I calmly continued my walk.

2. Suddenly I saw a message on the ground. It was made ~~of~~ out of branches. It was one word - "help". Why would someone write this in the forest?

That message really made me feel uncomfortable. "Is there actual danger in this forest? Am I safe?" - thought I. I felt real fear for myself.

I began running. The forest was large, the trees never ended. ~~Realising I don't know where I am~~ I suddenly realised I don't know where I am and fell on the ground.

3. I was lost. Suddenly I noticed a red sign on one of the trees. It was showing the way out of the forest.

I was so lucky to find this sign! Finally I could feel myself calm again. I felt so happy that soon I would be home.

I continued my way ~~and following~~^{ed} the sign. Surrounded by trees and branches, I was walking through the

forest. ~~And~~ I happily found my way out.

b) That stroll was one of the ~~most~~ scariest experiences I've had in my life. I thought that I would never come out of that forest. I will never make a step in that forest again. I still liked the extreme feeling though..
