Вариант 1

Task 1

Adult, average, ~~unconscious~~

Task 2

a) I was walking in the autumn forest alone when I suddenly heard a quit noise. The sound was becoming louder and louder.

I felt really scared. The sound was extraordinary. Different bad thoughts came to my mind. Where was this sound from?

Then I turned my head on the left and saw a little white rabbit jumping on the leaves. I ^{giggled} ~~laughed~~ because I was afraid of ~~this~~ this cute animal's noise.

b) I was walking in the forest when I heard a strange noise. It was becoming louder

and louder. I started to feel scared. Then I turned my head and saw a little rabbit jumping on the leaves. It was a ridiculous situation and I laughed.

Task 3

1. It's false because human activities have begun influencing climate change since the industrial age. The industrial age was in the nineteenth century.

2. It's false because the excessive levels of greenhouse gases are resulting in a warmer Earth and this leads to melting ice caps and rising sea levels.

3. It's false because there are a lot of alternatives to fossil fuels mentioned in the text. For example, wind power.

4. It's false because it is said in the text that deforestation contributes to climate change because trees absorb carbon dioxide but are being cut down.

5. It's true that using public transport instead of personal vehicles can reduce the effects of climate change because greenhouse gases are released less.

6. It's false because agreements aim to unite countries in reducing global warming. Climate change is a global issue that needs to be solved internationally.

7. It's false because governments and businesses are also responsible for setting and following guidelines to curb emissions for preserving our planet.

8. It's true that climate change currently affects all ecosystems and societies around the world because it has already happened. For example, global warming ~~temperatures changing~~ ~~of climate~~ has impacted worldwide.

9. It's false because it is said in the text that education on the significance of these climate issues is essential and it is necessary for future generations.

10. NOT Given
