Вариант 1

Task 1

Adult, to export, import, average.

Task 2

a) Once I was walking along a forest path. It was a pretty good weather.

Suddenly I heard a terrible voice: "Roarr". I didn't understand what it was because I was there alone. When I turned round I saw a big brown bear.

It stood in thirty meters and looked at me. I didn't know what I should do. I was very scared and couldn't believe that it was a real bear.

Then I understood that I should take some actions. I knew, that you mustn't move when you saw a bear. So, I didn't move. Fortunately, it

went away.

b) In my opinion, all kinds of experience can help you in your life. So, I think that this situation will help me once. It taught me to be more fearless and attractive. Of course, I was scared but it can be good for me.

Task 3

1. False.

Human activity has been a major cause since the industrial age. According to the statement human activities have only recently begun influencing climate change.

So, it's false

2. False

This phenomenon. The excessive levels of these gases (greenhouse) are resulting in a warmer Earth. This phenomenon leads to various problems including rising sea levels.

3. False

This can be done by switching to renewable energy sources such as wind or solar power. Not only solar power!

4. False

Deforestation is another contributor, as trees absorb carbon dioxide but are being cut down rapidly.

According to the statement, trees release carbon dioxide when they are cut down.

5. True

Individuals can also play a role by changing their daily habits. This could involve choosing public transport over a personal vehicle.

6. False

Special agreements aim to unite countries in reducing global warming. So, it's not a local initiative, but

international.

7. False

Governments and businesses are also responsible for setting and following guidelines to curb emissions.

So, the need to follow some guidelines regarding climate change.

8. True

Climate change has already impacted ecosystems and communities worldwide. So, that means that climate change currently affects all ecosystems and societies around the world.

9. False

Education on the significance of these climate issues is essential, and although change can be difficult, it is necessary for future generations.

10 Not given.

Answer for this statement isn't given in text
