ПОДПИСЬ УЧАСТНИКА

Вариант 1.

Task 1: adult, to export, monotonous.

Task 2: a.) Last week I was walking in a forest when suddenly I saw a turquoise bear. Furthermore, it had five eyes and two noses. I was astonished and went spellbound. I could not believe my eyes, because I had never seen anything resemble before! However, it was real. I immediately ran away from the creature. In a minute I stopped and decided to not miss the boat and take a photo of the bear.

b.) As a result of the occasion, I had sleep deprivation for several days. I couldn't help thinking about the bear all the time. I felt anxious. Now I'm trying to forget the situation and live normally. Regardless, I suspect I will always remember that.

- Task 3: 1. True. - Human activity has been a major cause since the industrial age. It started only about two hundred years ago. It is quite recently.
2. False. - The excessive level of carbon dioxide leads to the Earth warming. It causes melting ice caps and consequently rising of sea levels.
3. True. - According to the text, to tackle climate change humans have to switch to renewable energy sources such as solar power.
4. False. Deforestation contributes to climate change because ^{trees} ~~they~~ absorb carbon dioxide. They are being cut down and can't consume it which is detrimental.
5. True. - According to the text, individuals can play a role in tackling climate change by altering their habits, such as choosing public transport.

6. False. - According to the text, international cooperation is vital for tackling climate change. Special agreements aim to unite countries in reducing global warming.

7. False. - According to the text, not only individuals are responsible for reducing climate change. Businesses are also responsible for setting and following guidelines to curb emissions.

8. True. - According to the text, climate change has already impacted ecosystems and communities worldwide. International cooperation is essential for reducing it.

9. False. - In the text education about climate is considered as a contribution to the future generations which will deal with climate change.
