4. b

5. c

Task 4.

2. The email was sent by his ex-classmates. They wanted to hire Oliver for their new business. After Oliver had read the email, he whispered: „If I agreed to work for them, it would be a very risky idea. However, such offers come once in a blue moon“ He still did not want to be in their element but the argument with his boss was the final straw.

4. Oliver has been thinking about the offer all night long. He told himself: „Nothing bad would happen, nor would I do something wrong if I came to their job interview.“ Oliver was trying to make ends meet for years and felt very pathetic because of it. He was still dreaming about a bright future and a good salary, by and large.

6. "If only I could change my job earlier. They are always degrading me while not paying me enough money" Oliver thought. The office of his ex-classmates was posh and the team was reluctant. Also, Oliver was still scared that his new employers are somehow trying to take advantage of him. Nevertheless, Oliver understood that nothing can be worse than his previous job.

NS.

1. busybody - a person who is curious about other people lives, plans, and secrets, likes to "spill the beans" and gossip.

2. to be poised to do something - to be on the verge of doing something, to be ready to do something.

3. to agree to disagree - when two sides cannot get each other's point of view and reasoning so they just stop their interaction.

4. Sluggish - very slow, taking a lot of time to get something done.

5. To pan out - to work out, end up in an expected or unexpected way.

6. Task 6.

1. She has never experienced such pressure before.
2. I should have told you earlier.
3. His honesty was one that impressed me.
4. If she known the truth she would have reacted differently.
5. The plan is believed to be unrealistic
6. He kept working although he was exhausted
7. That was such a complicated task, few people completed it.

Task 7.

1. Newton developed three laws of the movement for all objects on Earth.
2. He discovered that the light is not a molecule nor a wave but a quant
3. She is also known for working out how radioactivity affects human health.

4. He was the first scientist to describe and organize species living on Earth.

5. He was also responsible for developing the prototype of the transformer of the electricity.
