Задание 4.

Paragraph 2.

Clara decided to turn a blind eye and ignore the message. At the back of her mind she knew she wanted to take part in an exchange programme. Her dad was strangely excited at the idea and

tried to convince his daughter to accept. She knew — if she didn't apply, someone else would have done it for her. However, the message still has been ignored.

Paragraph 4.

Clara was getting more and more hesitant. When she had told them about the opportunity she thought that her classmates would support her. On the verge of giving up she decided to prove everybody wrong and accept the offer in one go. The news of Clara taking part in an exchange programme created many jealous and hectic gossips. She did realise that her school life was no longer calm.

Paragraph 6.

The teachers were straightforward with their assumptions that she must have bought the place in a programme. But when Clara went to Canada during the exchange programme, the teachers there didn't take her efforts for granted and her education there got much more rewarding. She will have finished the school only in 2028 year but now she is enjoying yourself there without any regrets.
