Task 8.

I chose advertisement 7.

One might see this advertisement in a café or a restaurant of some sorts. It could be shown in a large city or a small town.

Perhaps the place where this advertisement is shown didn't serve breakfasts for some time ~~and started doing it~~ or didn't do it at all and started now. Regardless, this means that people may come in and order a breakfast.

This advertisement might be interesting to busy people who don't

have the time to cook a breakfast themselves, but still don't
want to be hungry in the morning
