Task 8

Now I would like to comment on the advertisement "reduce speed now". I consider it to be extremely widely-used.

Obviously, the most probable place to see it is a road where the speed is limited. I believe this advertisement is likely referred to drivers. It's worth-mentioning that these people had better pay attention to it as ignoring can have unpleasant consequences. The core one is that it can cause road accidents, such as a coincidence of two cars which sometimes leads to health problems or even death. As a result, drivers should always take such advertisements into consideration.
