Now I'm going to comment an advertisement ~~about~~: „Breakfasts are now being served“.

The modern life is full with sophisticated psychological marketing tactics and people, who deploy them. Nevertheless, a plethora of simple ads (I would say statements) are used nowadays too. This ad is one of them.

I think, I might see this advertisement on a window of a restaurant or a café.

I believe, that this advertisement refers to walking outside people, who are going to have breakfast.

If people are looking for a place to have breakfast, they wouldn't skip this one with the advert.
