#### Task 4:

##### Paragraph 2:

At first, Clara turned a blind eye. She was very interested in this offer, although at the back of her mind she knew that it could be a scam. She also realised that she had to give an answer sooner or later. If only she knew the consequences that would come, then the message would have never been replied to.

##### Paragraph 4:

Clara made her choice: she decided to confirm her interest in the programme. She had uploaded all of the needed information and documents in one go. When her classmates found out, they went hectic: some were on the verge of tears, others turned their back on Clara. They didn't understand why she took this opportunity from others when she already did have a plan for her future.

##### Paragraph 6:

It was pretty straightforward why Clara signed up: new opportunities will be presented to her. She thought this programme would be rewarding, but she took it for granted. Because of it, she lost a lot of relationships with others, but on the other hand, Clara was accepted to a prestig prestigious university. So, she must not have ~~regretted~~

regretted her choice, as it presented a perfect opportunity for her future.

### Task 5:

- 1- Level-headed means using your brain, head, logic in situations and not relying on your heart and emotions.
- 2- ~~frises~~ Vicious circle means a series of unfortunate events which are hard to get out of.
- 3- Bugbear — a thing or event which bothers somebody over a period of ~~a~~ time.
- 4- A tall order — difficult, sometimes unreasonable mission which needs to be done.
- 5- Heyday — the starting point or early period of ~~some thing~~ something or someone.

### Task 7:

- 1- He made important discoveries about space used in modern physics textbooks. (Isaac Newton invented the laws of motion, not Galileo).
- 2- He carried out experiments to prove ~~some~~ theories about black holes.
- 3- He was the first person to discover pasteurisation and this process was named after him.

4 - She didn't build a computer, but is one of the first to create computer programmes.

5 - He discovered penicillin while ~~working on~~ developing some antibiotics.
