## Paragraph 2.

This programme was at the back of Clara's mind, but then she read some news about it. Clara did not know what to do. Later she realised that if she knew someone who created this very programme, she would definitely had contacted him. However,

#### task 4 (ending)

sooner or later, the reply should have been done. Clara thought, 'is it really bad to turn a blind eye on this situation?' Then the confirming of Clara's interest has been made.

#### Paragraph 4.

On the verge of becoming a reason to laugh at, Clara decided to break the rumours in one go. She came closer to these classmates and gave a hectic speech, saying that she had already made her choice and she had deserved that place. Anyway, from this very moment Clara did know that she would be selected for this international exchange programme.

#### Paragraph 6.

However, the girl decided that she must have contacted the head of the organisation who added her to the online group to ensure that she would have her place taken for granted. She created a straightforward message, where she wrote about her achievements. Finally, the answer really came. There Clara saw a relief: the place was officially hers. Thus, this "rewarding" message was definitely worth the unexpected cost.

#### Task 5. (on the next page)

task 5 (ending)

1. level-headed is used when somebody has the ability to keep his mind conscious, even when the situation is out of control.
2. vicious circle is a special state when it seems that there is no possible solution to break out of the situation.
3. bugbear is something that is very difficult to overcome. It can ~~annoy~~<sup>nn</sup> annoy people, but it is very hard to cope with it.
4. a tall order is something that is almost impossible to deal with or complete.
5. heyday — very old times or the first days of something's existence.

Task 6.

- 1) Who was in charge of the person I spoke?  
<sub>tends</sub>
- 2) She ~~is~~ to hate working at weekends.
- 3) His argument was so convincing that they changed their minds.
- 4) Guests were expected to arrive on time.
- 5) The presentation was hardly finished when the applause began. →

task 5 (ending)

6) You will fail unless you prepare adequately.

7) It surprised me how <sup>calm he was remained</sup> ~~he was remained calm~~.

Task 7.

1) Galileo Galilei invented the heliocentric model, not just supported.

2) ~~Stephen~~ Not Stephen but ~~St'reven~~ Hawking was a theoretical physicist, ~~who (by the way) didn't work with radioactive elements~~. Known for his work on black holes and cosmology.

3) Not Louis Pasteur, but Alexander Fleming<sup>m</sup> was the first person to discover penicillin.

4) Ada Lovelace didn't build the computer, she ~~has~~ just worked with the programmes after the computer had been invented.

5) The surname of the penicillin's <sup>inventor</sup> ~~founder~~ is written incorrectly. ~~Insted~~ Instead of 'Fleming' double "m" should be used. (Flemming)
