Oliver was content with his life, even if sometimes he felt like he was in someone else's element. He decided to read the e-mail because what if it was a once in a blue moon opportunity. It wasn't too long, and when his view stopped on the promised paycheck, he knew that it was the last straw. He wanted to ~~know~~<sup>read</sup> more about the offer.

He spent hours considering ~~all sorts and~~ everything. He was ~~in there~~ working for years to get his current job that allowed him to make the ends meet. He had to make big and large choice. One decision could change his life forever. The ~~discussion~~ discussion went smoothly, but Oliver was still reluctant. What if they just wanted to take advantage of him? If he agreed without pushing, would he be happier? Only now Oliver realized how much he could have achieved if not for his fears. He still ~~was~~ was reluctant, but the determination glared in him. He agreed to take the job.
