## Flat To Let

This advertisement might be seen almost everywhere, mostly it's popular for big cities. This advertisement might refer to a lot of people such as students who are searching for a place to live and not able to buy their own flat or don't want to. Also some tourists also use it because don't want to live in a hotel.

People might take this advertisement into consideration because usually it's cheaper. It's cheaper than buying your own place for living and it might be cheaper than a fine hotel room for tourists.
