I would like to comment the first advertisement. You might see it practically everywhere nowadays. But more often you see it near the cafes, restaurants in the morning. The advertisement might refer to hungry people, for people who don't like to cook in the morning. It's also useful for tourists who don't have an opportunity to cook something at the hotel. People might take into consideration this advertis-

ment because they haven't seen this
place before and they are not sure
if it's going to be a good place for
them.
