Task 4.

② While she wanted to turn a blind eye, sooner or later she accepted the challenge. It had been told many times by her parents that she should decline,

at the back of her mind she knew that it would be a good experience. Her family had money to pay for her university, but she still has been in doubt.

④ When Clara got home she was on the verge of refusing to participate, but after few days she did decided to beat them all.

That evening she ~~sent~~ recorded the video message into their private class chat and proclaimed her willing to win everyone. Her behaviour in the school also changed. She was acting as if she had already won the

competition to prove herself she could do it.

⑥ A couple of months passed and Clara won the competition for this place. She must have been regretting things she did, but the trophy was going to be rewarding. After she will have returned from the program, she will start taking her success for granted, while her straightforward views turned into the speculation that everything she want to do would be a bright success.
