4. The incorrect statement is that Charles Darwin was the first scientist to discover gravity. It was Isaac Newton who discovered it first.

5. The incorrect statement is that Nikola Tesla was responsible for developing the first steam engine. It was Albert Einstein who developed it.

Task 4.

Paragraph 1.

The ~~email~~ email had been sent by the leading IT company. They offered to join their new

project as a data scientist. Oliver had always dreamed that if he was one, he would ~~undoubtedly~~ undoubtedly be in his element. Even the offer itself was something that happened once in a blue moon, but it was the salary that became the final straw.

#### Paragraph 4.

Oliver has been working as a mathematician for several years now. Although he barely made ends meet, he loved his peaceful life and job.

Oliver saw himself not as a pathetic man, but rather a cautious and hesitant one, that's why he didn't jump straight into ~~agreeing~~ <sup>ing</sup> agreeing. He would surely make much more money, if he joined this project but the fear of changing his life was crucial

### Paragraph 6.

As he listened to the manager, he realized that he shouldn't have been so reluctant to quit his posh job in order to get this one. In the end, Oliver took advantage of this offer and it paid off. He is now a successful data scientist who has found his purpose. Even his neighbours who are always being noisy during the night can't change the fact that he is utterly happy.
